M V Mermaid II

The Similan Islands lie about 100 km Northwest of Phuket. Declared a **National Park in 1982**, the Similans are comprised of **9 islands** which run roughly **North to South** and numerous smaller rock outcroppings.

With **snow-white beaches** and a tropical jungle above the water and spectacular dive sites in often crystal clear water below, it's not surprising that the Similans are ranked as one of the **top 10 dive sites** in the world!

The Similan Islands can certainly lay claim to being one of **Asia's top dive sites**. Thriving reefs with **abundant hard and soft corals** highlight the dramatic terrain, the **tremendous diversity of marine life** makes it a fantastic observation point for the larger pelagics, **Richelieu Rock** has the reputation as being the place to see **whale sharks** and **manta rays** in good numbers.

Join MV Mermaid II, for live-aboard trips to the **Similan Islands, Koh Bon, Koh Tachai, Richelieu Rock and the Surin Islands!** You are in for the **diving adventure of a lifetime** with these exciting destinations on offer.
